FOREWORD BY PRESIDENT

Dear Colleagues and Friends,

This year was very active for our Association with many events organized by the AEA-EAL or with our participation. Thanks to your engagement we have achieved a lot. Please let me only mention the most important: we unanimously decided about amending our Statutes, enhancing membership to lawyers from non-EU jurisdictions, including colleagues from other continents. Thanks to successful conferences in Barcelona and Olsztyn three new collective members and several individual members have been admitted. An extensive work has been done on our media - since July we issued two numbers of the Newsletter, improvements of

the AEA-EAL Facebook for better promotion of the Association has been introduced, our website have been changed and further developments are in progress. The AEA-EAL organized successful conference on cross-border insolvencies in Barcelona, holding on this occasion its annual congress. For Olsztyn GDPR conference, organised in cooperation with The Olsztyn Bar of Attorneys, we delivered four prestigious speakers, including prominent Chinese lawyer Susan Ning who familiarized us with the legislation on data protection in her country. Our Association took over a patronage on the celebrations of the 155 Anniversary of the Kraków Bar Association and participated in FBE conference in London. We organized meetings in Brussels and in Warsaw with the representatives of Georgian Bar Association -our new member bar, first one originating from country out of EU. Our committees have been working very intensively on new ideas and projects, including project submitted by young members of the AEA-EAL. Our Human Rights Committee sent a letter defending Belorussian lawyers, members of the Board had a number of bilateral meetings with our new collective members and potential partners in organizing future events. It was really a year full of work aiming on promotion of European values of our profession, on building a strong net among lawyers which in present times of globalization is very important for our practice, on exchange of information on legal matters.

I wish to say thank you very much to all of you for your engagement as well as for your hard and extensive work. Taking this opportunity, I permit myself to wish all members of the European Association of Lawyers all the best in your professional and private life. Merry Christmas and a Happy New Year!

With my best regards,

Maria Ślżak
President

"The Belt and Road" helps the countries along it to promote the development of economy. China provided a huge amount of money for economic assistance to other countries. Only in 2015, China enterprises invested in 49 countries along the line directly. The China Development Bank and the Export-Import Bank of China will set up specialized lending schemes worth RMB380 billion together to support "the Belt and Road" cooperation on infrastructure and financing. All workers must have right to paid annual leave

Workers are entitled to paid leave and can claim compensation if they are not allowed to take their holidays, the EU Court of Justice ruled on November 29, 2017 in Case C-214/16. The case was related to a British citizen who worked for a company on 'self-employed commission-only contract'. The contract had not foreseen payment for leave. After termination of the contract, the worker demanded a payment both for taken leave and for this he was not able to take. The company refused arguing that there was no right to leave nor to be paid for. The case was brought to the Employment Tribunal, which referred it to the EU Court of Justice. The Court ruled that EU law precludes a situation in which the worker has to take his leave before establishing whether he has the right to be paid in respect of that leave as well as EU law precludes national provisions or practices that prevent a worker from carrying over paid annual leave rights because his employer refused to remunerate that leave.
